

# HOW TO ACCESS THE WEBSDM TRAINING SITE AND MATERIALS

## **WebSDM Access**

Tribal partners and social workers are also able to access the WebSDM training site, where they can walk through the web-based assessments. This may be helpful when exploring specific definitions and thresholds, or during joint decision-making with County social workers.

The URL to this site is: <https://ca-training.sdmdata.org/>

Tribal partners can select the county that they partner with in the dropdown menu, and login using the following information.

- User name: student1
- Password: training

For support accessing or using the site, you may email the helpdesk at [support@evidentchange.org](mailto:support@evidentchange.org).

## **SDM TRAINING MATERIALS**

Additional information on the SDM system of assessments is available on the California Training Site, which can be accessed at the link below. You will find a section on the site which includes the full SDM Policy and Procedures Manual, as well as blank SDM assessments. Additional training materials are available on this site, as well as a live feedback form where users and stakeholders can submit recommendations for updates.

The link to the training site is: <https://docs.evidentchange.org/california/>
