

## Case Planning Exercise 1

In groups of four or five, rewrite each of these CWS/CMS objectives as a positive-change objective. Remember, the new objective should answer the question, what will this family look like when there is no need in this area? Next, write some indicators for each objective to make it SMART.

Priority Need	CWS/CMS Objective	New Objective	Indicators
SN1: Substance abuse/use	Do not abuse alcohol		
SN2: Household relationships	Protect yourself from abusive partner		
SN3: Social support system	Arrange child care/support during your absence		
SN4: Parenting skills	Do not neglect your child's needs		
SN5: Mental health	Take responsibility for actions		
SN6: Resource management	Maintain suitable residence for child		
SN7: Cultural identity	Acquire adequate resources		
SN8: Physical health	Eliminate danger to physical health
