Inform Systems. Transform Lives.

SAFEMEASURES® REPORTS FOR SDM® ASSESSMENT TRACKING

In the SafeMeasures Legacy system (https://app.safemeasures.org/ca), there is at least one type of report per assessment type that provides data regarding approval status. These reports are intended to help workers and supervisors understand which assessments are not fully complete (including supervisor approval if required). These reports should be used prior to CARES go-live to support Structured Decision Making® (SDM) assessment completion for optimal data recording through the transition.

REPORTS AVAILABLE IN SAFEMEASURES

- Hotline Tool Completion Report: https://app.safemeasures.org/ca/sdm_inv_hotline_completion/
- Safety Assessment Approval Report: https://app.safemeasures.org/ca/sdm_inv_sa_approval/
